Professional.
Certified.**

UPCOMING CLASSES

LEVEL 2/3
April 14th & 15th

The WreckMaster Level 2/3 class is the introductory class in the series of WreckMaster classes open for all to attend. In the Level 2/3 class students will learn very important safety practices for day to day activities. Students will be exposed to resistance calculations to take the unknown out of towing and recovery. Our top instructors will explain correct towing vocabulary in order to gain client confidence. They will learn everything from basic loading and unloading to attachment techniques to uprighting in a single lane of traffic. WreckMaster classes are a blend of class room theory and hands on training in the field. Many have said this is a life changing experience. Classes fill up fast so register today.

LEVEL 4/5
April 16th & 17th

The WreckMaster Level 4/5 class is the second class in the series of WreckMaster classes. You must first complete the Level 2/3 in order to attend the Level 4/5 class. The fun, excitement and enthusiasm intensify in the Level 4/5 class. Students now have the basics mastered and are exposed to advanced winching techniques. Advanced resistance calculations are explained so you always know what you are up against. Our top instructors will share advanced uprighting techniques that incorporate predictability and efficiency. This class is also a blend of class room theory as well as outdoor hands on training. Student will gain the knowledge necessary for the career operator. Register Now. Classes fill up fast.
